FDLRS is run by the FL Department of Education. They offer Associate Centers that have instructional and technical support services for school districts all over the state. These centers assist the FDOE Exceptional Student Education programs. Each Associate Center offers four main services: Child Find, Parent Services, Human Resource Development, and Technology. They partner with school districts, agencies and support personnel. As well as with administrators and students with disabilities or exceptionalities. Please call or visit the website to learn more.
